B. Turnaround Time: Once feedback is received, a revised version of the video(s) will be completed and delivered within 2 business days.

IV. PowerPoint Presentation

We kindly request that PowerPoint presentations (PPTs) be submitted at least 3 days prior to the scheduled event to allow us sufficient opportunity to review. We understand that sometimes it is inevitable that PowerPoints may be forwarded to us less than 3 days before the show and we will do our best to manage. However, it's important to note that discounts or refunds will not be issued for issues related to PPTs if they are not delivered within the specified timeframe.

V. This is an Estimate

This is the price of the tech scope we have discussed so far. If the scope or deliverables change, the final price will be different. Your Production Lead will discuss with you about anything that would affect the final price. (eg, extra microphones, the show running late, etc)

VI. Deposit Requirement for Projects Exceeding $10,000.00

For projects valued over $10,000.00, we require a 50% deposit paid 14 days before the first day of your show.

VII. Video Editing

For projects with video editing, we split the bill into 'Production Day' and 'Video Editing' expenses. Filming production costs are included in the second invoice, except if TRS Tech delivers the raw footage immediately after filming, then it's billed on the first invoice because the customer has the deliverable of the filming day.

VIII. Holidays

For projects that fall on holidays, we apply the following rule:

Billed at 1.5x rate for labor items:

New Year's Day
Memorial Day
July 4th
Labor Day
Black Friday
New Year's Eve after 12pm

Billed at 2x rate for labor items:
